

# Triangle Space Regeneration

In partnership with other members of the Royston Strategy Group, Copperworks HA have the opportunity of accessing Scottish Land Fund money to buy the areas of currently unused and neglected ground next to Roystonhill, Rosemount and Millburn Street, and the old tennis court site opposite the Millburn Centre.

This would enable the joint development of the land for community benefit. We would be grateful if you could complete this survey to support this project and your preferences for the re-use of the space.

# COPPERWORKS

Housing Association
